WORKING EXPERIENCE

Cocotech Solution - Frontend Software Engineer

SEPTEMBER 2020 - PRESENT

- Designed and developed web application features related to financial services to customers (Stripe Integration withdrawal)
- Refactored major part of the Web app, improving the web app performance and crash free sessions
- Worked closely with Development, QA, Project Management and Product teams to ensure timely and cost effective delivery of final products
- Acted as the technical lead on project, assist with defining the solution, and working with a team of developers
- Worked with API developers to provide data to the apps via Restful API
- Ensured our web applications can be rapidly and safely delivered to our customers through robust CI pipelines, tooling and processes

Linuxjobber - *Frontend Software Engineer Internship*

AUGUST 2022 - PRESENT

- Transformed a completely static HTML, CSS, JavaScript and React single page application into interactive user interface through the use of animations, transitions and carousels
- Processed API requests to dynamically represent data from a cloud server and represent it through skeleton loading states, pagination and dynamic routing
- Applied debugging best practices using Google Chrome inspect element tooling
- Conformed to and enforced coding standards and best practices to produce clean and maintainable codebases
- Lead the web team of the program, involved in critical thinking and Decision making.
- Contributed to and maintained multiple Web Apps open source projects.
